FULTON AND CHURCH HILL DIVIDED ON MONEY QUESTION

Members of the Marshall Ward delegation in the City Council are circulating a petition addressed to the Committee on Streets, asking that the 4500 square feet of the street and land apportioned to the ward be expended for smooth paving on Twenty-ninth Street in the neighborhood of the Soldiers and Sailors Monument, and about Libby Hill Park.

Though the petition has the support of the Church Hill section almost to a man, Fulton Ward claims that some part of the money should be expended there, and it is doubtful if the delegation will be unanimous when the matter goes to the Council.

It is understood that many members are preparing interesting ordinances and resolutions to introduce at the first meeting of the new body in September.

He will present a valuable amount of comparative statistics and conclusions about this hot weather scourge in the study of which much progress has been recently made, but which has not yet entirely yielded to medical science.

STEAM BOILER EXPLODES; TWO NEGROES ARE KILLED

(Special to The Times-Dispatch.)

MEHERRIN, Va., August 12.—The steam boiler of the Edgerton Lumber Company, at Victoria, Va., burst at their plant, located a few hundred yards from the town, on Saturday last, and killed two negroes who were employed around the engine. The pressure was from the bottom of the boiler, which was of good size, used for dressing lumber, and when the explosion took place there was so great a shock that it carried the main portion of the boiler up above the top of tall oaks that surround this plant, and fell several yards from where the explosion occurred. The two negroes who lost their lives were scalded to death by water and steam. The building in which the engine was located was demolished.

SHIPPING STORY DENIED.

World Conference of Ocean Companies Not Dissolved.

BERLIN, August 12.—The North German Lloyd Steamship Company today characterized as wholly incorrect the report from Paris that the international conference of representatives of the great shipping companies which held a short session in the French capital last week was dissolved because insurmountable difficulties had been encountered. All the representatives were united on one of the fundamental propositions, namely, the discussion of rates of cargo and passengers. The portion of the conference of August was taken at the request of the Italian lines in order to afford time for an adequate examination of the proposals.

WILL HEAR BRYAN BY PROXY

GEORGETOWN, August 12.—Although William J. Bryan, Democratic nominee for President, will be hundreds of miles away, Democratic voters of Georgetown hundred will hear him next Saturday when a big 200-phonograph will grind out the views on political questions of the day in the very tones of the "silver-tongued orator."

The meeting has been liberally advertised, and many of the farmers will be on hand to see if it is really true that such a thing can be. As Bryan has spoken in the public square in Georgetown many times, the farmers there will know at once whether the "voice" is Bryan's.

News Gathered From Southside..

Manchester Bureau, Times-Dispatch.

No. 1102 Hill Street.

The wave of indignation excited by the public protest which rocked Portsmouth last night, when Patrolman William S. Winninger was assassinated by a negro in the streets of that city, on Tuesday night, reached Manchester yesterday, when the police department here was instructed from the offices of the Governor to keep an active watch for traces of the fleeing criminal, who is said by some to be working his way in the direction of this city.

Every officer on duty last night was in a decision of a description of the fugitive, and every deputy and all electric car line terminals were under surveillance.

The negro, whose name is James Strong, is a desperado, and an utter degenerate. He is armed to the teeth and will probably not be taken alive. It is admitted that he is no longer at Portsmouth.

Chief of Police Lipscomb said last night that upon receiving his instructions from Secretary of State, the governor's offices he had charged his entire force to exercise extreme vigilance and to take the murderer dead or alive. A vigilant negro, who had fallen under suspicion, was chased out of Petersburg last yesterday afternoon, and was making in the direction of Manchester or Richmond when lost to sight.

It is expected that the Commonwealth, as well as the city of Portsmouth, will offer a liberal reward for the capture of the outlaw. In fact, the negro is said already to have a price set on his head.

The Light Fantastic.

During the recent protracted drought the water in the James River has receded so greatly that for several days the rock-bottom of the stream has been laid in many places by the glare of the sun.

For this reason a favorite afternoon amusement with sundry young persons has been found in "tripping it" on the "light fantastic." Plans for the boulder to boulder far out into the stream. On more than one occasion participants in this sport have been observed to venture into perilous places. In several instances these enthusiasts were warned of their danger, but the young folk were callow and smiled.

It happened yesterday afternoon that a somewhat corpulent gentleman of a Pickwickian deportment, joined the merry-makers at their aquatic pastime. In a short time, however, he became unduly "enthused," and took chances not warranted by the length of his legs.

It was exactly 5:40 o'clock by a re-
